

Notre Ecole
French Immersion STEAM School

Michele Chalmeau

Co-coordinator/Teacher

Bonjour, My name is Michele Chalmeau and I am excited to be your child's teacher. I learned to speak French as a child, in a French immersion school in Manhattan, NY, so I know how my students feel and what they are going through

I am originally from Mansfield, Pennsylvania, where I received my Bachelors degrees in Elementary Education, French, and Chemistry. I also lived in Toulouse, France for three years before moving to Minnesota in 2008, where I started my French immersion teaching career while simultaneously completing my Masters degree at Hamline University, in Natural Science and Environmental Education.

I also love spending time with my family. I have 3 children, and three cats.

In my spare time I enjoy practicing judo, volunteer coaching the kids judo class in Minneapolis, and participating in various other sports as well as reading, traveling, writing, and art.
