

# Aurélie Mingam

## *Teacher*

Bonjour, I am Aurélie Mingam. I was born in the middle of France in the Auvergne region. I have been dancing since I was a child (ballet, modern dance, contemporary dance). This is a passion I hope to practice as long as possible. I am also fond of music : there is no time in my private life without music.

As a student, I used lived in Lyon (France) where I got a bidisciplinary degree in Modern Literature and English. Then I spent a year in Ireland as a French assistant in a public primary school. Then I returned to Lyon in order to get my Masters degree to become a primary school teacher.

I taught in a public primary school near Lyon, within a Priority Education Network. During the seven years there, I really enjoyed working with a team and adapting to students' needs. I have also have experience working with children with special needs, English language learners, and children with high intellectual potential. It is important to me to accommodate and differentiate in my work.

Travelling is one of my other passions which I share with my husband. I have travelled a lot across Europe and across the different French regions. We love to discover new places, new cultures and most of all new food because we love cooking. We need to burn off those calories so we love hiking as well!

My family and my friends would say I am a bubbly and organized woman who likes taking care of people.

*Aurélie Mingam*
